This brand new program allows you to receive automatically generated emails from Wedding Steps brides containing name, email, phone, address and wedding date. These are potential brides who found our website and registered to receive coupons, bridal show updates, newsletters, etc. They want to know more about Wedding Steps and some have also opted to receive information from our vendors. With the "Quick Leads" program, you would receive their information to your email address. When a bride registers on our website and opts to receive information from our vendors, an email will be generated automatically for you as well. This allows you to sell your services to brides immediately!
